

Zero Harm in Laboratories is Possible

Lead by Example. We believe we are leading the way to zero harm in laboratories.

Our laboratories are safe for our staff, our patients, and our community.

Let's do it right and make our laboratories safe for everyone.

- Implement safety programs and procedures
- Create a safety culture
- Monitor and evaluate safety performance
- Engage staff in safety efforts
- Educate staff on safety risks

Our laboratory is safe for our staff, our patients, and our community. We believe we are leading the way to zero harm in laboratories.
